Message from the Guest Editors

Special issue is looking for research work, either practical or theoretical, original, previously unpublished findings in the field of hydrogen technologies for a cleaner planet, their opportunities and challenges for sustainable mobility, their technical, environmental, economic and social perspectives, power to gas application and hydrogen related infrastructure development. Review papers are also welcome if they give a thorough review in a particular field with a gap.

Deadline for manuscript
submissions:

31 May 2020

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), Ei Compendex, Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the first half of 2019).
